ABOUT THE COMPANY

WHO WE ARE

A leader in online shopping where we created huge changes in Indian villages. Started from scratch by educating village people about online shopping, and within a year we conquered more than fifty thousands pure hearts by revolutionary changes in their lives.

MISSION

To create the best decentralized online shopping platform of the 21st century where billions of users will get satisfied their daily needs with financial freedom.

VISION

We believe that daily shopping should be easy and fun. It should leave you happy and get the best offer, with money in your wallet. We also believe that everyone has the right to get the best ever.

HISTORY

ON MARCH 2020

Mr. Abdul Subhan & Mr. Noor Mohammed the founders of Arise CashWin who are living in 'Arni' an Indian village in the state of Tamil Nadu.

Both are friends from decades and discussed about a shopping platform where their village people can buy daily usable goods without any hurdles and of-course with best price.

They started the search and studies for the same to implement as soon as possible

ON SEPTEMBER 2020

The founders implemented the platform and developed an android application named 'Arise CashWin' which got approved by Google PlayStore.

Initially with two shops listed and a minimum of 200 users they started the journey.

The name '**Arise CashWin**' derived from a tamil village term 'Cherrn Valarunge' which means 'Win Together'

INTRODUCTION

Since the advent of cryptocurrency in the second decade of the 21st century, it has become clear that it will hover in the financial horizons of modern times. Hundreds of cryptocurrencies have been introduced in the markets of finance. However, not every currency was able to obtain a valuation, and the reason for the failure is simple...due to exploitation on the behalf of the planners.

Arise CashWin Coin has been introduced with the concept of real, intrinsic, and certain investor benefits. It has also included the wonderful concept of online shopping Finance. The utilities of its tokens are excellent to operate worldwide online shopping without hurdles and it offers complete financial freedom.

The social responsibility, ledger accountability, blockchain, decentralized nature, and growth potential are carefully planned. Thus, the future and prospects of this cryptocurrency are of limitless potential. Arise CashWin Coin has been professionally designed with utmost regard to be responsible, reliable and technologically fully aligned with Financial Principles.

DECENTRALIZATION

The company founders and development team was hardly working on 100% community-based, cryptocurrency experiment into motion. Cryptocurrency itself comes from the idea of redefining wealth and how it can be acquired, which goes against traditional processes by its very nature.

And yet, most, if not all, cryptocurrencies function within enforceable rules. It's easy to see when we look back at cases like the SEC's win over the Kin Ecosystem (a centralized authority), or when we consider how the Binance Smart Chain seems to use centralized authority to offer "benefits" over their decentralized partnerships.

In the ever-shifting economic landscape, cryptocurrencies which do not take their independence into their own hands struggle with a tenuous existence.

When the rules of the game are changed against their favor, they have no option but to comply; regardless of the consequences.

SHOP BEYOND BOUNDRIES

Today, all of us prefer online shopping because of its many obvious benefits.

Products are easier to find and we can easily and effortlessly order products without going to the store. Enough reason for people to use this service. Online shopping has become very common because of the growing access to the Internet via mobile and desktop.

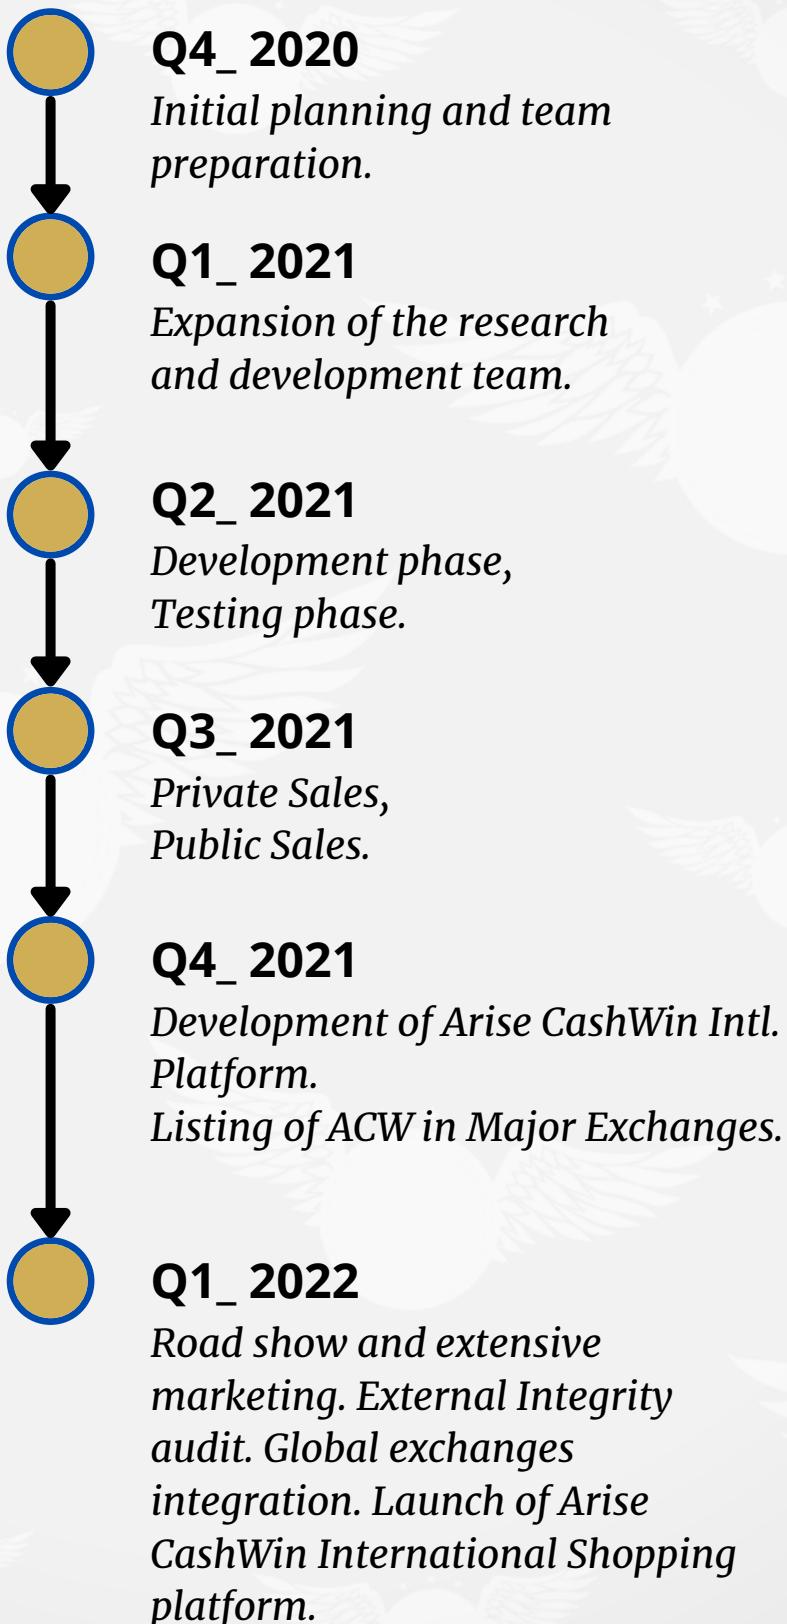

Arise CashWin Coin offers the wide open chance to use it for online shopping in multiple platforms in nearby future. We are building our own network globally and our platform will offer effortless shopping from anywhere at any time.
